DEPARTMENT OF LAND AND NATURAL RESOURCES  
Division of Aquatic Resources  
Honolulu, Hawai'i 96813

March 10, 2011

Board of Land  
and Natural Resources  
Honolulu, Hawai'i

Amend Prior Board Action of October 28, 2010, Item F-2: Request for Authorization and Approval to Issue a Papahānaumokuākea Marine National Monument Conservation and Management Permit to Commanding Officer John Caskey, National Oceanic and Atmospheric Administration (NOAA) Ship HI'IALAKAI, for Access to State Waters to Conduct Shipboard Support Activities; Due to Personnel Change

The Division of Aquatic Resources (DAR), on behalf of Applicant NOAA, U.S. Department of Commerce for the NOAA Ship HI'IALAKAI, hereby submits its request to amend the Board's prior authorization and approval for issuance of a Papahānaumokuākea Marine National Monument conservation and management permit to John Caskey, C.O., NOAA Ship HI'IALAKAI, to be issued pursuant to § 187A-6, Hawaii Revised Statutes (HRS), chapter 13-60.5, Hawaii Administrative Rules (HAR), and all other applicable laws and regulations.

AMENDMENT REQUEST

The amendment request seeks the Board's authorization and approval for issuance of a Papahānaumokuākea Marine National Monument conservation and management permit to Commanders John Caskey and Michael Ellis, NOAA Ship HI'IALAKAI.

At the time of the original application, CDR Caskey was the Commanding Officer of NOAA Ship HI'IALAKAI and was listed as the applicant for a renewal permit for the ship's 2011 activities. As such, CDR Caskey was listed by name in the title of the submittal approved by the Board of Land and Natural Resources on October 28, 2010. Since that time, DAR staff learned that CDR Ellis will be replacing CDR Caskey as the Commanding Officer of NOAA Ship HI'IALAKAI in July of 2011, during the ship's field season in the Monument. As such, the Papahānaumokuākea Marine National Monument conservation and management permit for access to State waters to conduct shipboard support activities should be issued to both Commanders Caskey and Ellis as co-permittees.

All other aspects of the submittal seeking authorization and approval for this permit remain the same as that which was approved by the Board of Land and Natural Resources

on October 28, 2010 (see F-2a, original submittal). Only the designation of a co-applicant has been added (See F-2b, revised application for NOAA Ship HI'IALAKAI).

STAFF OPINION:

DAR staff is of the opinion that the amendment request should be approved.

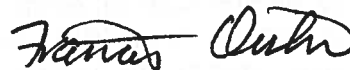

MMB OPINION:

The MMB is of the opinion that the amendment request should be approved.

RECOMMENDATION:

That the Board authorize and approve this amendment request for issuance of a Papahānaumokuākea Marine National Monument conservation and management permit to Commanding Officers John Caskey and Michael Ellis, NOAA Ship HI'IALAKAI.

Respectfully submitted,

Administrator  
Division of Aquatic Resources

APPROVED FOR SUBMITTAL

WILLIAM J. AILA, JR.  
Interim Chairperson

State of Hawaii  
DEPARTMENT OF LAND AND NATURAL RESOURCES  
Division of Aquatic Resources  
Honolulu, Hawaii 96813

October 28, 2010

Board of Land  
and Natural Resources  
Honolulu, Hawaii

Request for Authorization and Approval to Issue a Papahānaumokuākea Marine National Monument Conservation and Management Permit to Commanding Officer John Caskey, National Oceanic and Atmospheric Administration (NOAA) Ship HI'IALAKAI, for Access to State Waters to Conduct Shipboard Support Activities.

The Division of Aquatic Resources (DAR) hereby submits a request for your authorization and approval for issuance of a Papahānaumokuākea Marine National Monument conservation and management permit to John Caskey, C.O., NOAA Ship HI'IALAKAI, pursuant to § 187A-6, Hawaii Revised Statutes (HRS), chapter 13-60.5, Hawaii Administrative Rules (HAR), and all other applicable laws and regulations.

The conservation and management permit, as described below, would allow entry and management activities to occur in Papahānaumokuākea Marine National Monument (Monument), including the NWHI State Marine Refuge and the waters (0-3 nautical miles) surrounding the following sites:

- Nihoa Island,
- Necker Island (Mokumanamana),
- French Frigate Shoals,
- Gardner Pinnacles,
- Maro Reef,
- Laysan Island,
- Lisianski Island, Neva Shoal,
- Pearl and Hermes Atoll, and
- Kure Atoll State Seabird Sanctuary

The activities covered under this permit would occur between January 1, 2011 and December 31, 2011.

The proposed activities are a renewal of work previously permitted and conducted in the Monument.

ITEM F-3

F-2a

### INTENDED ACTIVITIES

The applicant proposes to provide an at-sea platform to support research, education, and management activities within the Monument. Researchers, educators, and managers aboard NOAA Ship HI'IALAKAI would work under separate permits than the ship.

The ship would transit to the Monument from Pearl Harbor, operate within the Monument conducting various operations, including small boat operations, SCUBA diving, snorkeling, marine debris retrieval and removal, oceanographic data collection, and supporting authorized U.S. Fish and Wildlife Service and State of Hawaii marine and land-based operations. Monument personnel would typically be on board and in charge of the scientific party.

All methods and procedures would be performed with the safety and welfare of personnel, the protection of Monument resources, and the accomplishment of mission objectives as top priorities. NOAA Ship HI'IALAKAI would have all required inspections (hull fouling, gear, tender vessel, ballast water, and rat) completed before departure to the Monument. NOAA Ship HI'IALAKAI also has a type-approved Vessel Monitoring System (VMS) on board, which meets Monument requirements, and would abide by Monument entry and exit notification requirements.

The support provided by NOAA Ship HI'IALAKAI would not diminish Monument resources, qualities, or ecological integrity and is fully compatible with the purposes of the Proclamation including preserving and furthering understanding of Monument resources and qualities. NOAA Ship HI'IALAKAI plays an integral role in assuring that research and conservation and management activities, which are critical management elements for the Monument, are properly supported in the field.

The activities proposed by the applicant directly support the Monument Management Plan's priority management need 3.6 – Achieving Effective Monument Operations through action plan 3.6.3 - Coordinated Field Operations. As NOAA Ship HI'IALAKAI would serve as a platform for a variety of other permitted activities, this permit would also support priority management needs 3.1 – Understanding and Interpreting the NWHI; 3.2 – Conserving Wildlife and Habitats; and 3.3 – Reducing Threats to Monument Resources.

The activities described above may require the following regulated activities to occur in State waters:

- ☒ Anchoring a vessel
- ☒ Swimming, snorkeling, or closed or open circuit SCUBA diving within any Special Preservation Area or Midway Atoll Special Management Area

### REVIEW PROCESS:

The permit application was sent out for review and comment to the following scientific and cultural entities: Hawaii Division of Aquatic Resources, Papahānaumokuākea Marine

05-7

National Monument (NOAA/NOS), NOAA Pacific Islands Regional Office (NOAA-PIRO), United States Fish and Wildlife Service Pacific Islands NW Refuge Complex Office, and the Office of Hawaiian Affairs (OHA). In addition, the permit application has been posted on the Monument Web site since September 20th, giving the public an opportunity to comment. The application was posted within 40 days of its receipt, in accordance with the Monument's Public Notification Policy.

**Comments received from the scientific community are summarized as follows:**

Scientific reviews support the acceptance of this application. No concerns raised were.

**Comments received from the Native Hawaiian community are summarized as follows:**

Cultural reviews support the acceptance of this application. No concerns were raised.

**Comments received from the public are summarized as follows:**

No comments were received from the public on this application.

**Additional reviews and permit history:**

Are there other relevant/necessary permits or environmental reviews that have or will be issued with regard to this project? (e.g. MMPA, ESA, EA) Yes ☒ No ☐  
If so, please list or explain:

- The proposed activities are in compliance with the National Environmental Policy Act.
- Research scientists, educators, and managers working aboard NOAA Ship HI'IALAKAI will apply for and be issued separate permits pertaining to their individual activities.
- The Department has made an exemption determination for this permit in accordance chapter 343, HRS, and Chapter 11-200, HAR. See Attachment ("DECLARATION OF EXEMPTION FROM THE PREPARATION OF AN ENVIRONMENTAL ASSESSMENT UNDER THE AUTHORITY OF CHAPTER 343, HRS AND CHAPTER 11-200 HAR, FOR PAPA HĀNAUMOKUĀKEA MARINE NATIONAL MONUMENT CONSERVATION AND MANAGEMENT PERMIT TO COMMANDING OFFICER JOHN CASKEY, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA) SHIP HI'IALAKAI, FOR ACCESS TO STATE WATERS TO CONDUCT SHIPBOARD SUPPORT ACTIVITIES UNDER PERMIT PMNM-2011-009.")

Has Applicant been granted a permit from the State in the past? Yes ☒ No ☐  
If so, please summarize past permits:

- Commanding Officer Caskey was issued permits PMNM-2009-020 and PMNM-2010-007 in 2009 and 2010. In addition, the NOAA Ship HI'IALAKAI, under

previous Commanding Officers, has been granted Monument and/or DLNR permits for similar activities since 2006. (DLNR.NWHI06S003; PMNM-2007-028; PMNM-2008-008)

Have there been any a) violations: Yes ☐ No ☒  
b) Late/incomplete post-activity reports: Yes ☐ No ☒

Are there any other relevant concerns from previous permits? Yes ☐ No ☒

#### STAFF OPINION

DAR staff is of the opinion that Applicant has properly demonstrated valid justifications for his application and should be allowed to enter the NWHI State waters and to conduct the activities therein as specified in the application with certain special instructions and conditions, which are in addition to the Papahānaumokuākea Marine National Monument Conservation and Management Permit General Conditions. All suggested special conditions have been vetted through the legal counsel of the Co-Trustee agencies (see Recommendation section).

#### MONUMENT MANAGEMENT BOARD OPINION

The MMB is of the opinion that the Applicant has met the findings of Presidential Proclamation 8031 and this activity may be conducted subject to completion of all compliance requirements. The MMB concurs with the special conditions recommended by DAR staff.

#### RECOMMENDATION

That the Board authorize and approve a Conservation and Management Permit to Commanding Officer John Caskey, NOAA Ship HI'IALAKAI, with the following special conditions:

1. To prevent introduction of disease or the unintended transport of live organisms, the permittee must comply with the disease and transport protocol attached to this permit.
2. Tenders and small vessels must be equipped with engines that meet EPA emissions requirements.
3. Refueling of tenders and all small vessels must be done at the support ships and outside the confines of lagoons or near-shore waters in the State Marine Refuge.
4. No fishing is allowed in State Waters except as authorized under State law for subsistence, traditional and customary practices by Native Hawaiians.

Respectfully submitted,

Administrator

APPROVED FOR SUBMITTAL

LAURA H. THIELEN  
Chairperson

**Papahānaumokuākea Marine National Monument**  
**CONSERVATION AND MANAGEMENT Permit Application**

**NOTE: *This Permit Application (and associated Instructions) are to propose activities to be conducted in the Papahānaumokuākea Marine National Monument. The Co-Trustees are required to determine that issuing the requested permit is compatible with the findings of Presidential Proclamation 8031. Within this Application, provide all information that you believe will assist the Co-Trustees in determining how your proposed activities are compatible with the conservation and management of the natural, historic, and cultural resources of the Papahānaumokuākea Marine National Monument (Monument).***

**ADDITIONAL IMPORTANT INFORMATION:**

- Any or all of the information within this application may be posted to the Monument website informing the public on projects proposed to occur in the Monument.
- In addition to the permit application, the Applicant must either download the Monument Compliance Information Sheet from the Monument website OR request a hard copy from the Monument Permit Coordinator (contact information below). The Monument Compliance Information Sheet must be submitted to the Monument Permit Coordinator after initial application consultation.
- Issuance of a Monument permit is dependent upon the completion and review of the application and Compliance Information Sheet.

**INCOMPLETE APPLICATIONS WILL NOT BE CONSIDERED**

Send Permit Applications to:

Papahānaumokuākea Marine National Monument Permit Coordinator

6600 Kalaniana'ole Hwy. # 300

Honolulu, HI 96825

[nwhipermmit@noaa.gov](mailto:nwhipermmit@noaa.gov)

**SUBMITTAL VIA ELECTRONIC MAIL IS PREFERRED BUT NOT REQUIRED. FOR  
ADDITIONAL SUBMITTAL INSTRUCTIONS, SEE THE LAST PAGE.**

## **Papahānaumokuākea Marine National Monument Permit Application Cover Sheet**

This Permit Application Cover Sheet is intended to provide summary information and status to the public on permit applications for activities proposed to be conducted in the Papahānaumokuākea Marine National Monument. While a permit application has been received, it has not been fully reviewed nor approved by the Monument Management Board to date. The Monument permit process also ensures that all environmental reviews are conducted prior to the issuance of a Monument permit.

### **Summary Information**

**Applicant Name:** Commander John T. Caskey, NOAA

**Co-Applicant Name:** Commander Michael F. Ellis, NOAA

**Affiliation:** U.S. Department of Commerce

National Oceanic and Atmospheric Administration (NOAA)

Office of Marine and Aviation Operations

NOAA Ship *Hi`ialakai*

**Permit Category:** Conservation and Management

**Proposed Activity Dates:** January 1, 2011 - December 31, 2011

**Proposed Method of Entry (Vessel/Plane):** NOAA Ship *Hi`ialakai*

**Proposed Locations:** All areas

**Estimated number of individuals (including Applicant) to be covered under this permit:** 27

**Estimated number of days in the Monument:** 100

**Description of proposed activities:** (complete these sentences):

a.) The proposed activity would...  
allow NOAA Ship *Hi`ialakai* to safely support scientific activities approved through the permit process. *Hi`ialakai* provides the base "mother ship" for small boat, diving, mapping, cultural, and other activities approved by the Monument Co-Trustees and the NOAA fleet allocation process. Without ship support, these activities would not be possible.

b.) To accomplish this activity we would ....  
operate the ship in accordance with applicable Monument, Federal, and State regulations. The ship will support approved activities while respecting the cultural significance of the area and making as minimal an impact on the environment as possible.

c.) This activity would help the Monument by ...  
supporting permitted science and cultural activities with respect to environmental stewardship.  
The activities support the understanding and protection of Monument resources and education  
and outreach to the public.

**Other information or background:**

## **Section A - Applicant Information**

### **1. Applicant**

Name (last, first, middle initial): Caskey, John T. CDR, NOAA / Ellis, Michael F. CDR, NOAA

Title: Commanding Officer - NOAA Ship *Hi'ialakai*

#### **1a. Intended field Principal Investigator (See instructions for more information):**

CDR John T. Caskey, NOAA and CDR Michael F. Ellis, NOAA

### **2. Mailing address (street/P.O. box, city, state, country, zip):**

NOAA Ship *Hi'ialakai*  
NOAA Ship Operations Facility  
Ford Island Building 184  
1897 Ranger Loop  
Honolulu, HI 96818

Phone: (808) 479-9575

Fax: (808) 455-6895

Email: co.hiialakai@noaa.gov

For students, major professor's name, telephone and email address:

### **3. Affiliation (institution/agency/organization directly related to the proposed project):**

U.S. Department of Commerce  
National Oceanic and Atmospheric Administration  
Office of Marine and Aviation Operations

**4. Additional persons to be covered by permit. List all personnel roles and names (if known at time of application) here (e.g. John Doe, Research Diver; Jane Doe, Field Technician):**

Officers and crew of NOAA Ship *Hi`ialakai* (positions below; names will be provided in Attachment 1 and updated throughout the permit period):

Executive Officer	Chief Boatswain
Operations Officer	Boatswain Group Leader
Navigation Officer	Seaman Surveyor
Junior Officer	Seaman Surveyor
Third Mate	Able Seaman
Medical Officer	Able Seaman
Chief Engineer	Able Seaman
First Engineer	General Vessel Assistant
Third Engineer	Chief Steward
Junior Engineer	Chief Cook
Engine Utility	Second Cook
General Vessel Assistant	Electronics Technician
Survey Technician	Chamber Operator

<input type="checkbox"/> Other			

NOTE: There is a fee schedule for people visiting Midway Atoll National Wildlife Refuge via vessel and aircraft.

### **Location Description:**

Ship will operate throughout the Monument in support of activities approved in various other Monument permits.

### **5b. Check all applicable regulated activities proposed to be conducted in the Monument:**

- ☐ Removing, moving, taking, harvesting, possessing, injuring, disturbing, or damaging any living or nonliving Monument resource
- ☐ Drilling into, dredging, or otherwise altering the submerged lands other than by anchoring a vessel; or constructing, placing, or abandoning any structure, material, or other matter on the submerged lands
- ☒ Anchoring a vessel
- ☐ Deserting a vessel aground, at anchor, or adrift
- ☒ Discharging or depositing any material or matter into the Monument
- ☐ Touching coral, living or dead
- ☐ Possessing fishing gear except when stowed and not available for immediate use during passage without interruption through the Monument
- ☐ Attracting any living Monument resource
- ☒ Sustenance fishing (Federal waters only, outside of Special Preservation Areas, Ecological Reserves and Special Management Areas)
- ☐ Subsistence fishing (State waters only)
- ☒ Swimming, snorkeling, or closed or open circuit SCUBA diving within any Special Preservation Area or Midway Atoll Special Management Area

**6 Purpose/Need/Scope *State purpose of proposed activities:***

The purpose of the ship's activities are to provide an at sea research platform to support diver, small boat, multibeam mapping, and education activities in support of approved Monument permits. All operations are for activities permitted by the co-trustees of the Monument as being compatible with the conservation and management goals of the Monument, NOAA, USF&WS, and the State of Hawaii. Activities will be respectful of the natural, historical and cultural resources of the Monument.

*Hi`ialakai* is dedicated to studying and protecting the Papahānaumokuākea Marine National Monument, and to carrying out NOAA's mission of understanding the Earth's environment and managing marine resources to meet our nation's economic, social and environmental needs.

**7. Answer the Findings below by providing information that you believe will assist the Co-Trustees in determining how your proposed activities are compatible with the conservation and management of the natural, historic, and cultural resources of the Monument:**

The Findings are as follows:

a. How can the activity be conducted with adequate safeguards for the cultural, natural and historic resources and ecological integrity of the Monument?

The activity will be conducted with adequate safeguards for the resources and ecological integrity of the Monument. *Hi`ialakai* and all respective tender vessels will anchor on sandy substrate only. All sustenance fishing activities conducted aboard the *Hi`ialakai* will be within Midway Atoll Special Management Area. *Hi`ialakai* will follow guidelines set forth by USFWS Refuge.

*Hi`ialakai* has a Type II Marine Sanitation Device capable of treating black water and a holding tank capable of holding sewage and grey-water. The *Hi`ialakai* has a waste management plan which meets or exceeds the International Convention for the Prevention of Pollution from Ships (MARPOL 73/78) and U.S. Coast Guard regulations and Monument regulations.

*Hi`ialakai* also has a working Vessel Monitoring System installed capable of tracking all movement within the Monument, per the requirements of Proclamation 8031, signed by the President on June 15, 2006. NOAA Ship *Hi`ialakai* will maintain up to date inspections: Rat free inspection, hull and tender inspection and cleaning, and ballast water inspection.

Each year the ship invites a member of the Monument staff to brief the crew on the historical and cultural significance of the Monument. Additionally, DVDs of the cultural lecture and briefing materials of the natural and cultural resources of the Monument are available to crew and scientific personnel at any time.

b. How will the activity be conducted in a manner compatible with the management direction of this proclamation, considering the extent to which the conduct of the activity may diminish or

enhance Monument cultural, natural and historic resources, qualities, and ecological integrity, any indirect, secondary, or cumulative effects of the activity, and the duration of such effects?

*Hi`ialakai* is the support vessel to conduct activities authorized in other permits. All support activities will be conducted in accordance with regulations and in a manner to reduce any impact to the environment and with respect cultural resources.

c. Is there a practicable alternative to conducting the activity within the Monument? If not, explain why your activities must be conducted in the Monument.

*Hi`ialakai* is one of the most capable dive research vessels in the world. The ship has a record of safe mission support, embracing environmental stewardship, and respecting cultural resources of the Monument. Because of this, the ship is the support vessel of choice to conduct activities authorized in other permits.

d. How does the end value of the activity outweigh its adverse impacts on Monument cultural, natural and historic resources, qualities, and ecological integrity?

*Hi`ialakai* is the support vessel to conduct activities authorized in other permits as beneficial to the management goals of the Monument. The activities cannot occur without a support vessel.

e. Explain how the duration of the activity is no longer than necessary to achieve its stated purpose.

*Hi`ialakai* will spend no additional time in the Monument than necessary to support operations authorized in individual permits for each cruise.

f. Provide information demonstrating that you are qualified to conduct and complete the activity and mitigate any potential impacts resulting from its conduct.

NOAA Commanding Officers are authorized to operate NOAA Vessels in accordance with annual sailing orders and the fleet allocation plan. NOAA ships are public vessels of the United States and conform with regulations for personnel qualifications and operations. The NOAA Ship *Hi`ialakai* spends approximately one hundred days a year in the Papahānaumokuākea Marine National Monument. The applicant is well qualified to conduct and complete the activity and mitigate any potential impacts resulting from the activity.

g. Provide information demonstrating that you have adequate financial resources available to conduct and complete the activity and mitigate any potential impacts resulting from its conduct.

*Hi'ialakai* is public vessel operating in the Monument to support activities approved by the Monument co-trustees. As such, the ship is part of the Monument management team and the U.S. Government.

h. Explain how your methods and procedures are appropriate to achieve the proposed activity's goals in relation to their impacts to Monument cultural, natural and historic resources, qualities, and ecological integrity.

All activities will be conducted to support work permitted in individual research permits for each cruise and with respect to environmental stewardship and the cultural heritage of the Monument. Applicable Monument, federal, and state regulations will be followed.

i. Has your vessel has been outfitted with a mobile transceiver unit approved by OLE and complies with the requirements of Presidential Proclamation 8031?

NOAA Ship *Hi'ialakai* is equipped with a Monument type-approved NOAA OLE Vessel Monitoring System (Specifications below).

Sailor TT 3606 XP - Thrane & Thrane  
VMS Email: 436902144@c.xantic.net  
Inmarsat ID#:436902144

j. Demonstrate that there are no other factors that would make the issuance of a permit for the activity inappropriate.

There are no other factors that would make the issuance of a permit for the activity inappropriate.

*Hi'ialakai* has supported research and cultural activities within the Papahānaumokuākea Marine National Monument for several years. The ship and crew have a strong record of safe operations, mission accomplishment, and respect for the environmental and cultural resources of the Monument.

### **8. Procedures/Methods:**

The ship will transit to the monument from Pearl Harbor, operate within the monument with various research and education operations, including small boat operations, diving, snorkeling, multibeam sonar mapping, oceanographic data collection, and supporting authorized USF&WS or State of Hawaii land based operations.

Crew activities will include small boat operations, SCUBA, snorkeling, and swimming as necessary for vessel maintenance, emergency operations, proficiency, morale, and support of vessel and research activities.

The ship will monitor other vessel traffic in the vicinity of operations and report movement to the NOAA Office of Law Enforcement.

The ship will typically perform small boat operations during the day and mapping or oceanography at night.

Monument personnel will typically be on board and in charge of the scientific party.

All methods and procedures will be performed with the safety and welfare of personnel, the protection of Monument natural and cultural resources, and the accomplishment of mission objectives as top priorities.

Ship's personnel will abide by the NOAA documents: "Marine Wildlife Viewing Guidelines", the "Disease and Introduced Species Prevention Protocol for Permitted Activities in the Marine Environment Papahānaumokuākea Marine National Monument" for in water activities, and the "Best Practices for Minimizing Impact of Artificial Light on Sea Turtles".

*Hi'ialakai*, like any other vessel or house hold, inevitably creates waste. The ship carries up to 48 scientists and crew for 30-day periods. The waste generated is relatively small compared to a cruise ship or other larger vessels, but the issue is taken very seriously. The ship has waste management systems and plans, follows or exceeds MARPOL and USCG regulations in all waters, and has a goal to exceed Monument regulations when operating inside the Monument.

Inside the Special Preservation Areas (SPAs) the ship holds everything that flows down a drain. Outside the SPA, the ship legally discharges food scraps, which are not sanitary to store on board, treated sewage (type II MSD effluent), and diluted water from sink and shower drains (grey water) in accordance with regulations and authorizations in the ship's permit. Water saving equipment has been installed to reduce the amount of drain water generated each day, substantially reducing the amount of waste water requiring treatment each day.

Discharges such as engine cooling water, deck runoff, and engine exhaust are inevitable to vessel use and are allowed in all areas under the Monument regulations.

The crew of *Hi'ialakai* is understanding and respectful of the natural and cultural importance of the Monument, and will strive to minimize all discharges of any type within the Monument.

**NOTE: If land or marine archeological activities are involved, contact the Monument Permit Coordinator at the address on the general application form before proceeding, as a customized application will be needed. For more information, contact the Monument office on the first page of this application.**

**9a. Collection of specimens - collecting activities (would apply to any activity): organisms or objects (List of species, if applicable, attach additional sheets if necessary):**

Common name:

n/a - individual science permits will cover.

Scientific name:

# & size of specimens:

Collection location:

| ☐ Whole Organism ☐ Partial Organism

**9b. What will be done with the specimens after the project has ended?**

n/a - individual science permits will cover.

| **9c. Will the organisms be kept alive after collection?** ☐ Yes ☐ No

n/a - individual science permits will cover.

• General site/location for collections:

| • Is it an open or closed system? ☐ Open ☐ Closed

| • Is there an outfall? ☐ Yes ☐ No

• Will these organisms be housed with other organisms? If so, what are the other organisms?

• Will organisms be released?

**10. If applicable, how will the collected samples or specimens be transported out of the Monument?**

n/a - individual science permits will cover.

**11. Describe collaborative activities to share samples, reduce duplicative sampling, or duplicative research:**

n/a - individual science permits will cover.

**12. List all specialized gear and materials to be used in this activity:**

Small boats, multibeam sonar, and ROV. All other gear will be specified in individual science permits.

**13. List all Hazardous Materials you propose to take to and use within the Monument:**

Fuel / Lubricants: Gasoline, #2 Diesel Fuel, Lubrication Oil & Hydraulic Oil (Amounts will vary per cruise).

**Hazardous Materials (MSDS Inventory):**

Antifoulant Device	EP-921 (cleaning solvent)
Aqua-Sol 20/20 Marine	Estesol Gold (skin cleanser)
AS-175 Anti-Slip Coating	Eyesaline Concentrate (eyewash)
Various Types of Batteries	First Step
CCX-77	Gasket Remover Aerosol
Cleaner / Degreaser 5G	Gleem Metal Polish
Clorox Bleach	Paints (Various)
LPS CFC – Contact Cleaner	Quorx
Silicone Aerosol	Simple Green (Cleaner / Degreaser)
WD-40	Wedac

**14. Describe any fixed installations and instrumentation proposed to be set in the Monument:**

n/a - individual science permits will cover.

**15. Provide a time line for sample analysis, data analysis, write-up and publication of information:**

n/a - individual science permits will cover.

**16. List all Applicant's publications directly related to the proposed project:**

n/a
